

The F&F universe, just a click away

Perfumer & Flavorist magazine has compiled this revised and enlarged directory of flavor and fragrance Web sites, related industry contacts, industry associations, academic/educational institutions and governmental/regulatory bodies to keep you connected to the F&F online universe. This year's edition includes hundreds of revisions and additions from across the globe, from suppliers to formulators to bloggers.

If your company's Web site has changed or you would like to add your company to the listing, please contact Kelly Frederick at kfrederick@allured.com.
