

# AROMA INGREDIENTS

## AROMA INGREDIENTS

Indesso supplies a wide range of aroma ingredients to food, flavor, and fragrance industry for the creation of various everyday products.

Most of the raw materials are sourced from native botanicals unique to

Indonesia such as Clove, Nutmeg, Patchouli, Citronella, and Vetiver.

Each product is manufactured under strict quality control that complies with the international standard and regulations.

## Capabilities

### Dedicated R&D Center

Our dedicated Research and Development (R&D) center serves as the heartbeat of our organization, driving continuous exploration and innovation.

### Sophisticated Technology

Our manufacturing site showcases the pinnacle of sophisticated technology, positioning us as industry leaders in innovation and production excellence.

### Sustainability Initiatives

Our commitment to sustainability is woven into our corporate ethos, evident in responsible sourcing, green manufacturing processes, and a focus on minimizing our carbon footprint.

# Products
